1. In 1944-1945 the Soviets constructed a new airfield in the vicinity of Kloostri (15 km southwest of Paldiski). They compelled the natives to work on its construction.
2. On both Pakri Islands fortifications have been erected and airfields have been reconstructed. The airfields were destroyed by the Germans at the time of their retreat.
3. Most of the aircraft on the Laanemaa Airfield (in a suburb of Tallinn) are transport planes.
